AGENDA: STRIKE VOTE

After three days of negotiations with the Employer your Bargaining Committee has been unable to form an agreement.

It is the Union's position the Employer has failed to recognize the Part Time workforce by tabling minimal and insignificant wage increases throughout the next term of an agreement.

The Employer reminded the Committee, the bulk of the Part time workforce, received substantial increases of 15% to 20% when the start rate was increased to \$16.00 due in part to the Provincial government minimal wage increase and the Employer's inability to attract job applicants to Metro.

Through the use of a government appointed Conciliation Officer the Bargaining Committee has placed a strike deadline of January 28th, 2019 at midnight on the Employer and should there be no change on the Employer wage offer a strike will commence.

We are asking all PART TIME METRO MEMBERS to attend this import strike vote meeting.
